KSC2 Series

Sealed Tactile Switch for SMT 6.2 x 6.2 mm, with 3.5mm Height Soft Actuator

Specifications

Function	Momentary action
Contact Arrangement	1 make contact = SPST, N.O.
Terminals	J bend & Gullwing type for SMT
Sealing	IP67

Note: Specifications listed above are for switches with standard options. For information on specific and custom switches, consult Customer Service Center.

Electrical Characteristics			
Dielectric Strength (50 Hz, 1 min.)	≥ 250 Vrms		
Contact Resistance	≤ 100mΩ		
Insulation Resistance (100 V)	\geq 1000 M Ω		
BounceTime	≤ 1 ms		
	Silver	Gold	
Maximum Power	1 VA	0.2 VA	
Maximum Voltage	32 VDC	32 VDC	
Minimum Voltage	20 mV	20 mV	
Maximum Current	50 mA	10 mA	
Minimum Current	1 mA 1	0.1 mA	

Note:

1. Ultra low current with 10 μA - 1 VDC $\,$ version is available upon request

Environmental Characteristics

	Silver	Gold
Operating Temperature	-40°C to 85°C	-40°C to 125°C
Storage Temperature	-55°C to 85°C	-55°C to 125°C

Description

The KSC2 series of sealed tactile switches for SMT are IP67 rated, 3.5mm high momentary action tactile switches, featuring a soft actuator. The switches are available with a variety of operating forces and in a range of electrical lifespans, depending on model. The KSC2 series are designed to give users a positive adaptable tactile feeling, perfect for consumer-facing applications.

Features & Benefits

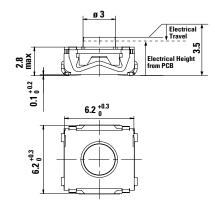

- Electrical Height for easier integration due to more precise tolerances
- Soft actuator 3.5mm high
- IP67

Applications

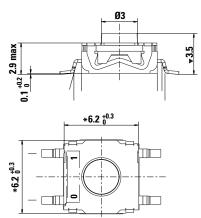

- Industrial electronics
- Consumer products

- Compatible with lead free reflow soldering process of SMT devices
- Low halogen, RoHS and REACH compliant
- Transportation
- Medical

KSC251 SP DELTA	6.2 ± 1.55	100,000	0.6 ± 0.2	0.55	2.95 ± 0.2

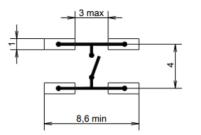

Soldering Profile

Soldering process: Depending on the application, this component is suited to the following methods:

- Terminals being silver or gold plated over a nickel barrier, the use of slightly activated flux is suitable.
- Lead free soldering process in accordance with the definition on the left.

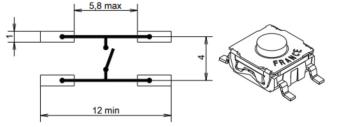

Note: Up to 2 reflow cycles in accordance with the above temperature profile

Ordering Number

Our easy build-a-switch concept allows you to mix and match options to create the switch you need. To order, select desired option from each category. However, please note that not all combinations of these options are feasible. For any part number different from those listed below, please consult your local representative.

Liability Limitation

This datasheet does not provide enough information for applications that require a certain level of quality or safety such as automotive, medical systems, or safety equipement. Please contact customer service for the contractual specification package.

Disclaimer Notice - Information furnished is believed to be accurate and reliable. However, users should independently evaluate the suitability of and test each product selected for their own applications. Littelfuse products are not designed for, and may not be used in, all applications. Read complete Disclaimer Notice at http://www.littelfuse.com/disclaimer-electronics.
